

IN THE CLAIMS:

Please amend the claims as follows:

A marked up copy of each amended claim pursuant to 37 CFR § 1.121(c)(1)(ii) appears on the page immediately following the amended claim.

sub B1

14

(Amended) A computer program product comprising:
a computer program processable by a computer system for causing the
computer system to:
read machine information;
read diagnostic information corresponding to the machine
information; and
cause one of a plurality of diagnostic routines to become selectable
for execution according to the diagnostic information; and
an apparatus from which the computer program is accessible by the
computer system.

ADDITION OF NEW CLAIMS 20 AND 21 PURSUANT TO 37 CFR § 1.121(C)(1)(i)

20. (New) A computer system comprising:
a first computer including:
a processor;
a memory coupled to the processor;
the memory including a diagnostic script, a plurality of diagnostic routines, first diagnostic information, and machine information;
the diagnostic script being executable by the processor to cause the machine information to be read, to cause a portion of the first diagnostic information corresponding to the machine information to be read, and to cause one of the plurality of diagnostic routines to become selectable for execution by the processor according to the portion of the first diagnostic information;
a second computer;
a communications network;
the first computer and second computer being configured to communicate using the communications network; and
the first computer being configured to detect second diagnostic information on the second computer and to receive the second diagnostic information;
wherein the machine information includes an operating system type and a machine type, and wherein the first diagnostic information includes a list of included components corresponding to the operating system type and a list of excluded components corresponding to the machine type.

21. (New) The computer system of claim 20, further comprising:
a component coupled to the processor;
